WORLD'S BEST MOTORCYCLE WINDSHIELDS AND ACCESSORIES

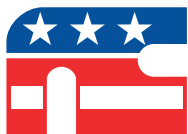

The company known today as National Cycle Inc. was founded in 1937 in Maywood, IL as The Nation's Cycle Center by a young man, Gordon Willey (1903-1989), who believed that success in business required "Total Customer Satisfaction".

It's a philosophy National Cycle maintains today, with its state-of-the-art factory still in Maywood, as it continues to build the best motorcycle windshields and accessories riders can buy.

Explore National Cycle's 82-year history and heritage.

national cycle[®] *since 1937*

ADVANTAGES

NEW PRODUCTS

New product details and resource assets for your publishing and communications needs are at your fingertips!

Visit our New Products blog in National Cycle News.

PARTS FINDER

To find what fits what, just go to our home page and click on “SHOP”. Then select the year, make and model. Everything that fits that bike will be displayed.

Or scroll down to “FIND PRODUCTS FAST” on the home page and enter the year, make and model there.

The interface features a dark background with the text 'FIND PRODUCTS FAST' in large white letters. On the right, there are four dropdown menus labeled 'CATEGORY:', 'MAKE:', 'MODEL:', and 'YEAR:', each with a 'Choose' option. Below these is a red button labeled 'FIND PRODUCTS'.

POLYCARBONATE VS ACRYLIC... YOU DECIDE!

Which manufacturer's windshield would you rather put on your highly engineered motorcycle? Is there a difference in impact resistance? Crack resistance? Scratch resistance?

We took some popular acrylic windshields and subjected them to a battery of tests. Then we performed the same tests on their own hardcoated polycarbonate windshields. We literally threw everything we had at them!

The results may surprise you! Watch the video and see for yourself... then YOU decide!

Polycarbonate Impact Resistance

Polycarbonate Crack Resistance

Watch our “Polycarbonate vs Acrylic” video!

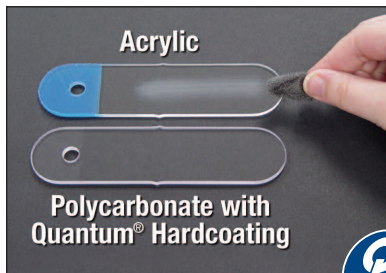

QUANTUM® INNOVATION

National Cycle's exclusive Quantum® hardcoating is the world standard for scratch resistance and optical clarity. Nothing else compares – this is the toughest hardcoating there is!

Quantum® Scratch Resistance

	Quantum Hardcoated Polycarbonate	100
	10 FMR Hardcoated Polycarbonate	
	03 Acrylic	

Measured with Taber Abrasion Test

Read about National Cycle's acclaimed Quantum® hardcoating.

THE RAINZIP® DIFFERENCE

To keep windshields clearer in rainy weather, National Cycle developed RainZip®, a specially formulated rain repellent treatment that is safe to use on Quantum® hardcoated National Cycle Windshield. And, it's safe to use on ANY motorcycle windshield, plus helmet faceshields and goggles.

RainZip is extremely hydrophobic – when rain accumulates on a rider's windshield, RainZip will cause it to effectively bead up and blow away, even at riding speeds of only 20-30MPH.

Watch the RainZip demonstration video!

DISCOVER THE VSTREAM® DIFFERENCE

VStream®

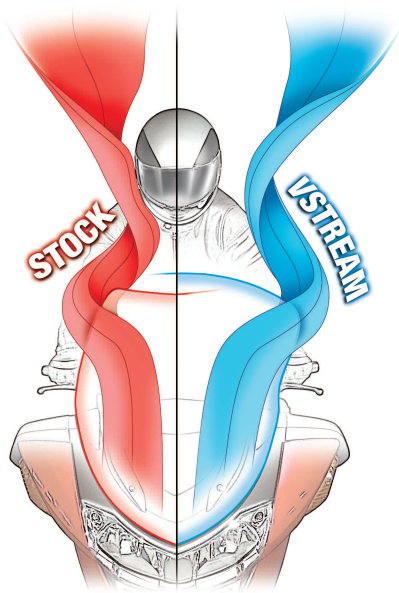

The VStream® gets its name from the unique shape and dimensional contours designed and engineered into the windscreen. The patented “V” profile helps push the turbulent wind out and away from the side of the rider’s head, producing a quieter and more comfortable riding experience.

VStream+®

National Cycle’s VStream+ Windscreens include specially designed and engineered mounting brackets made for each specific model bike. They’re expertly designed, provide maximum rigidity, minimum weight, and are easy to install.

**There are over 250 VStream
Windscreens for more than
130 different makes and
models!**

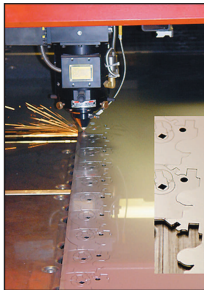

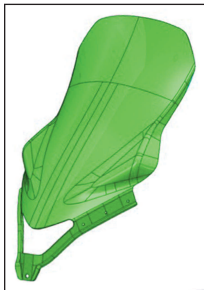

Get the latest applications and specs for all VStream Windscreens!

WORLDWIDE LEADER IN WINDSHIELD TECHNOLOGY™

MANUFACTURING

National Cycle is the pioneer in the development of hardcoated polycarbonate windshields and canopies for motorcycles, scooters, 4x4 UTVs, EV urban transport, watercraft and aviation applications.

The Maywood, Illinois factory is outfitted with state-of-the-art manufacturing equipment. The company's skilled engineers have earned a reputation in the windshield manufacturing industry as talented designers and problem solvers.

CAPABILITIES

PLASTICS

- Routers; 3-, 5- and 6-Axis
- Polycarbonate Forming
- Hardcoatings
- Plastic Injection Moldings
- Printing

METALS

- Laser Cutting
- Stamping/Punch Press
- CNC Press Brake
- Milling
- Tube Bending
- Swaging
- Knurling
- CNC Machining
- Welding
- Polishing

MORE CAPABILITIES

- Equipment Engineering
- Mold Making
- Tooling

SELLING MOTORCYCLE WINDSHIELDS

WHY BUY A MOTORCYCLE WINDSHIELD?

- It's practical
- It's affordable
- It's versatile

WHAT ARE THE BENEFITS OF RIDING WITH A WINDSHIELD?
