

FOR IMMEDIATE RELEASE

National Cycle's New Wing Deflectors™ for 2018-20 Honda® GL1800

Maywood, IL – National Cycle's new Wing Deflectors™ are made from tough, sturdy 3.0mm Polycarbonate and are CNC routed for smooth radiused edges. Each piece is formed for superior wind control and then Quantum® hardcoated for long-lasting scratch resistance.

These Wing Deflectors are replacements for the OEM Windscreen Flaps and are designed to maximize the performance of National Cycle's new VStream+® Deluxe Windscreens, greatly reducing wind noise and buffeting.

NOTE: These Wing Deflectors are designed to work in conjunction with National Cycle's N20019 VStream+® Deluxe Mid Windscreen or N20020 VStream+® Deluxe Standard Windscreen. They will not work with the stock windscreen or with other aftermarket windscreens.

National Cycle Wing Deflectors are backed by a 3-Year Warranty against breakage!

N5150 Wing Deflector for 2018-Current Honda® GL1800 Retail: \$69.95

National Cycle products are made in the U.S.A.

About National Cycle:

Since 1937, National Cycle has been the world's premiere designer and manufacturer of OEM and aftermarket windshields for motorcycles, scooters and ATV/UTVs, as well as other quality motorcycle accessories. As the pioneering developer of hardcoated polycarbonate for motorcycle windshields, National Cycle is always on the forefront in enhancing the motorcyclist's riding experience.
