

National Cycle Releases Updated Replacement Windscreens for 2021-23 Honda® PCX Riders

Maywood, IL – National Cycle introduces three full-size windscreens for the redesigned 2021-23 Honda PCX150. These new commuter windscreens work great in cool weather and rain as well as everyday riding. They're made from 3.0mm Quantum® hardcoated polycarbonate for outstanding scratch resistance and strength. Quantum hardcoating also gives these windscreens much better optical definition and clarity, and they'll stay that way a lot longer.

Advantages

- Durable polycarbonate construction means 23X greater impact resistance than acrylic/Lucite® plastic
- Quantum® Hardcoating increases scratch resistance 30X over acrylic/Lucite® plastic
- Complete installation instructions included
- Covered by a 3-Year Warranty against breakage

National Cycle Replacement Screens are also available for 2013-14, 2015-18, and 2019-20 Honda PCX models.

N50007 Touring Replacement Screen; Clear; H: 13.38"	Retail: \$184.95
