

New VStream+® Deluxe Windscreens with Vent for the 2018-Current Honda® GL1800

Maywood, IL – The newly redesigned GL1800 sets the standard for long-range touring motorcycles, and our VStream® Windscreens for the new Wing set that standard even higher. Now we introduce the new VStream+® Deluxe to raise the bar once again.

VStream gets its name from its unique patented shape. The advanced “V” profile and dimensional contours push the wind vortex out and away from the rider's helmet, resulting in a peaceful, quieter riding environment.

The “+” means these windscreens include a custom mounting bracket specifically designed and engineered for this model bike.

These windscreens are made from tough 4.5mm Quantum® hardcoated polycarbonate. Quantum hardcoated polycarbonate is the material of choice for serious motorcycle riders. It is 10X more abrasion resistant than FMR hardcoated polycarbonate, and 30X more than windscreens made from commonly used acrylic or “aircraft plastic”.

The new VStream+ Deluxe also has our exclusive RainZip® treatment pre-applied! When riding in the rain, water will quickly bead up and simply blow away. RainZip makes rainy days look a lot sunnier!

A standard Gold Wing™ vent is included and pre-installed.

VStream Windscreens come with complete installation instructions and are protected by National Cycle’s 3-Year Warranty against breakage!

N20019 VStream+® Deluxe Mid Windscreen; Clear; H: 16.88"
N20023 VStream+® Deluxe Standard Windscreen; Clear; H: 19.00"

Retail \$379.95
Retail \$399.95
