

ZTechnik's Popular VStream® Windscreens Now Available for the 2018-20 BMW® C400X

Maywood, IL – When is a scooter more than just a scooter? When it's a BMW® scooter. The stylish and capable C400X features all the bells and whistles and creature comforts you would expect from a vehicle with roundels on it. The only thing missing is a VStream® Windscreen. Our windscreens for the C400X are available in three sizes for weather that's warm or cold and for riding that's spirited or sedate. There is a perfect VStream for every kind of rider.

VStream gets its name from its unique patented shape. The advanced "V" profile and dimensional contours push the wind vortex out and away from the rider's helmet, resulting in a peaceful, quieter riding environment.

These windscreens are made from 3.0mm Quantum® hardcoated polycarbonate. This high quality material, along with state-of-the-art manufacturing techniques, provides outstanding clarity, impact strength and scratch resistance unmatched by any windscreen maker worldwide.

Quantum hardcoated polycarbonate is the material of choice for serious motorcycle riders. It is 10X more abrasion resistant than FMR hardcoated polycarbonate, and 30X more than windscreens made from commonly used acrylic or "aircraft plastic".

VStream Windscreens are easy to install and are protected by a 3-Year Warranty against breakage!

About ZTechnik:

ZTechnik® is a brand created by National Cycle, Inc. that specializes in high quality motorcycle accessories designed exclusively for BMW Motorcycles. The name itself is from the German "Zubehör Technik," which translates to "technical accessories" in English. The ZTechnik philosophy is to closely follow design principles established by the original equipment designers, produce only the highest quality parts possible, and enhance the rider's total experience.
