

ZTechnik's Popular VStream® Windscreens Now Available for the 2019 BMW F750GS

Maywood, IL – The long-awaited successor to the popular F700GS is here and ZTechnik is ready with four new VStream® Windscreens that will withstand years of rugged use. The windscreens are made in three different sizes and tints to satisfy almost any GS rider's needs. All will offer improved wind protection and riding comfort compared to OEM or other aftermarket windscreens.

VStream gets its name from its unique patented shape. The advanced "V" profile and dimensional contours push the wind vortex out and away from the rider's helmet, resulting in a peaceful, quieter riding environment.

These windscreens are made from tough 4.5mm Quantum® hardcoated polycarbonate. This high quality material, along with state-of-the-art manufacturing techniques, provides outstanding clarity, impact strength and scratch resistance unmatched by any windscreen maker worldwide.

Quantum hardcoated polycarbonate is the material of choice for serious motorcycle riders. It is 10X more abrasion resistant than FMR hardcoated polycarbonate, and 30X more than windscreens made from commonly used acrylic or "aircraft plastic".

VStream Windscreens are easy to install and are protected by a 3-Year Warranty against breakage!

About ZTechnik:

ZTechnik® is a brand created by National Cycle, Inc. that specializes in high quality motorcycle accessories designed exclusively for BMW Motorcycles. The name itself is from the German "Zubehör Technik," which translates to "technical accessories" in English. The ZTechnik philosophy is to closely follow design principles established by the original equipment designers, produce only the highest quality parts possible, and enhance the rider's total experience.
