

## **ZTechnik's Popular VStream® Windscreens Now Available for the New BMW G310GS**

**Maywood, IL** – ZTechnik® now has VStream® Windscreens in three different sizes and tints for the new 2017-18 BMW G310GS. This means there is a perfectly sized windscreen for almost every rider, short or tall. All will offer improved wind protection and riding comfort compared to OEM or other aftermarket windscreens. Though the smallest member of the GS family, riders will appreciate the big bike wind protection and performance these windscreens offer.

ZTechnik makes these new VStream Windscreens from tough polycarbonate and applies their proprietary Quantum® hardcoating for unmatched scratch resistance. This material will out-perform any other motorcycle windshield material on the market.

Quantum hardcoated polycarbonate is the material of choice for serious motorcycle riders. Polycarbonate has impact resistance 20X greater than windscreens on the market made from commonly used acrylic or "aircraft plastic", with the best scratch resistance in the world.

VStream Windscreens are easy to install and are protected by a 3-Year Warranty against breakage.

These new VStream Windscreens for the BMW G310GS are an outstanding value at a great price!

Z2360 VStream® Low Windscreen; Dark Tint; H: 14.25"	Retail: \$129.95
Z2361 VStream® Mid-Size Windscreen; Light Tint; H: 16.88"	Retail: \$139.95
Z2362 VStream® Tall Windscreen; Clear; H: 19.38"	Retail: \$149.95

ZTechnik products are made in the U.S.A.

### **About ZTechnik:**

ZTechnik® is a brand created by National Cycle, Inc. that specializes in high quality motorcycle accessories designed exclusively for BMW Motorcycles. The name itself is from the German "Zubehör Technik," which translates to "technical accessories" in English. The ZTechnik philosophy is to closely follow design principles established by the original equipment designers, produce only the highest quality parts possible, and enhance the rider's total experience.
