

FOR IMMEDIATE RELEASE

NEW ZTechnik® Engine Guards for BMW® R850/1100/1150 Models

Maywood, IL – Engine Guards for these legacy BMW models are available again in a new finish that looks great when installed.

An E-Coat (Electrophoretic Coating) is applied inside and out to eliminate rust and corrosion, and the Black Powdercoating makes the finish tough and long lasting.

ZTechnik Engine Guards attach to the engine mounts – not the engine covers – to protect the motor's heads/valve covers. Integrated brackets on each guard allow the rider to mount accessory lights, video cameras, or whatever they can imagine. These Engine Guards are carefully designed to allow clearance for oil changes or valve cover access, so they don't need to be removed for routine maintenance.

For greater comfort on longer rides, mount 1-inch clamp-on foot pegs to the Engine Guard's upper or forward sections.

All mounting hardware is included, along with easy-to-follow installation instructions.

Z7105-002 Black Powdercoated Engine Guards Retail: \$499.95

ZTechnik products are made in the U.S.A.

About ZTechnik:

ZTechnik® is a brand created by National Cycle, Inc. that specializes in high quality motorcycle accessories designed exclusively for BMW Motorcycles. The name itself is from the German "Zubehör Technik," which translates to "technical accessories" in English. The ZTechnik philosophy is to closely follow design principles established by the original equipment designers, produce only the highest quality parts possible, and enhance the rider's total experience.
