

FOR IMMEDIATE RELEASE

NEW ZTechnik® Engine Guards for 2019 BMW® R1250 Models

Maywood, IL – ZTechnik's Engine Guards are now available in both the original Electropolished Stainless Steel finish (Z7107-003) and a new E-Coated/Powdercoated Black finish (Z7106-002) that looks great on the new models.

The E-Coat (Electrophoretic Coating) is applied inside and out to eliminate rust and corrosion, and the Black Powdercoating makes the finish tough and long lasting.

ZTechnik Engine Guards attach to the engine mounts – not the engine covers – to protect the motor's heads/valve covers. Integrated top brackets on each guard allow the rider to mount accessory lights, video cameras, or whatever they can imagine. These Engine Guards are carefully designed to allow clearance for oil changes or valve cover access, so they don't need to be removed for routine maintenance.

For greater comfort on longer rides, mount 1-inch clamp-on foot pegs to the Engine Guard's upper or forward sections.

All mounting hardware is included, along with easy-to-follow installation instructions.

Note: Will not fit 2019-Current R1250R Style HP, R1250R Option 719 Sparkling Bronze Metallic, R1250RS Austin Yellow Metallic Matte, or R1250RS Option 719 Sparkling Bronze Metallic models with the lower body spoiler installed.

Z7106-002	E-Coated/Powdercoated Steel Engine Guards	Retail \$476.95
Z7107-003	Electropolished Stainless Steel Engine Guards	Retail \$589.95

ZTechnik products are made in the U.S.A.

About ZTechnik:

ZTechnik® is a brand created by National Cycle, Inc. that specializes in high quality motorcycle accessories designed exclusively for BMW Motorcycles. The name itself is from the German "Zubehör Technik," which translates to "technical accessories" in English. The ZTechnik philosophy is to closely follow design principles established by the original equipment designers, produce only the highest quality parts possible, and enhance the rider's total experience.
