

## **ZTechnik Introduces Touring Deluxe VStream® Windscreen for the BMW® R1200GS/Adventure**

**Maywood, IL** – ZTechnik® has added an additional VStream® Windscreen to the lineup for the R1200GS/GSA. This new screen, the Z2488 Touring Deluxe, is 2.5" (6.35cm) taller than the current Z2487 Touring VStream. It's made for maximum wind protection for serious long distance riders and dedicated Iron Butters.

VStream gets its name from its unique shape and dimensional contours. The patented "V" profile helps keep the wind away from the upper body and helmet for a quieter, more comfortable ride.

Tough FMR hardcoated polycarbonate gives VStream windscreens outstanding clarity and strength characteristics unmatched by any windscreen maker worldwide. They are 3X more resistant to abrasion than acrylic materials, and have 20X greater crack and impact resistance.

All ZTechnik Windscreens are proudly made in the U.S.A. and come with their exclusive 3-Year Unbreakable Warranty.

Z2485	VStream® Sport Windscreen; Dark Tint; H: 15.50" (39.3cm)	Retail: \$184.95
